TETRIX® MAX DC Gear Motor

A Pitsco Exclusive

Type: Motors, Parts, Mechanical Parts/Motors and Servos |
Line: TETRIX Building System/MAX | Ages: 14+ |

[Add to Wishlist](#) ☆

Redesigned for improved performance, this motor can handle more heat buildup and now has tougher coil protection and a harder steel alloy to prevent gear stripping. Twelve-volt DC motor features 152 rpm and 320 oz-in. of torque. **Note:** Gear train damage can occur if the motor shaft is stalled while being powered.
